TO : Chief, WHD

DATE 17 April 1956

FROM : Chief of Station, Habana *JPR*

SUBJECT { GENERAL - Operational - KUTUBE
SPECIFIC - Arthur G. Vaivada

REFS: (a) HKH-W-1607, 30 March 1956
(b) HKH-W-1505, 28 December 1955

1. Regarding reference (a) the Station concurs fully with the proposed promotion of Arthur G. Vaivada and desires also at this time to bring to the attention of Headquarters the merits of granting Vaivada staff status either concurrently with the promotion or as soon thereafter as may prove feasible.
2. The agent himself has expressed a keen interest in acquiring such status, for a number of obvious reasons. As a contract agent, Vaivada has not been entitled to the standard step increases that accrue to regular GS employees. Moreover he has not had the benefit of recent legislative increases in basic salary rates, such that his salary, originally set 16 August 1954 at the then GS-9 level, is still \$5060.00 per annum. Perhaps of more importance than the foregoing considerations is the fact that this agent has been and is losing out in terms of the retirement, health insurance, and other more long-term advantages available to staff personnel. The agent has several times expressed to the case officer his concern, as a family man, over the fact that he is not receiving retirement credits with his years of service. Vaivada's expressed career interests lie in continued employment by KUBARK, more especially in the area of [redacted] assignments in the field, and in view of his qualities of character and high level of performance for KUBARK the Station has no hesitation in recommending to Headquarters that he be awarded the desired change in status.
3. In view of the agent's present salary level it is recommended that the promotion from his present grade be to the equivalent of a GS-10 at a per annum salary of \$5,915.00. If Headquarters concurs in the recommendation that the agent be granted staff officer status, the agent would move up to the GS-11 grade at that time.

SPECIFIC Arthur G. VAIVADA

DECLASSIFIED
17 JUN 1954

1. The following information on Arthur G. VAIVADA is being forwarded so that you may consider using him in Mexico City as a contact agent, in which capacity he has served KUPIRE most ably in the past four years. His present contract, which became effective on 1 September 1953 for a two year period, provides for a salary equivalent to grade GS-7, with allowances.

2. A review of the Headquarters file indicates that subject is an aggressive, rather well qualified operative, who has enjoyed a good measure of success and has exercised good judgment under operational stress. He desires a career with this Agency, and is devoted to the work.

[Redacted]

He was trained covertly by instructors of KUPARK in Washington, D.C. in the latter part of 1953. His instructors indicate that they were most favorably impressed and feel that he possesses a sound practical knowledge of basic clandestine operational principles and should become an increasingly valuable agent in the long range work of this organization.

3. The following is a summary and appraisal of subject's work which has been provided by the Costa Rican Desk at Headquarters:

a. He was recruited by the Panama station in November 1948, but in early 1949 he moved to San Jose, Costa Rica, where he enrolled [Redacted] as a student of economics.

Arthur G. VAIVADA; Contract Amendment

1. A recent ruling by the Office of the General Counsel has ended the payment of allowances, as such, to contract personnel. In the future those amounts previously paid as allowances will come under the heading of compensation.
2. Since compensation is taxable, whereas allowances are not, additional adjustments have been made to compensate for tax losses incurred in the changeover. VAIVADA's contract has been so adjusted, and it is believed he will find the new quarters and cost of living figures to be equitable. The specific changes are as follows:

QUARTERS

Old "allowance" (non-taxable)	\$2,100.00
New "compensation" (taxable)	\$2,575.00

COST OF LIVING

Old "allowance" (non-taxable)	\$1,650.00
New "compensation" (taxable)	\$1,920.00

3. Forwarded herewith are the original and one copy of an amendment to VAIVADA's contract, which reflects the above-described adjustments. The original should be signed and returned to Headquarters.

SUBJECT : Contract Amendment, Arthur G. VAIVADA

1. It is requested that the contract of Arthur G. VAIVADA be amended to provide for an increase in salary from \$5060.00 to \$5915.00, effective 1 April 1956. *It is further requested that the allowances be appropriately adjusted.*

2. VAIVADA entered on duty with this organization on 1 June 1949 as a contract agent. From June 1949 through August 1953 he was stationed in Costa Rica, where his record was outstanding and included the successful [redacted]. He was subsequently given Headquarters training for several months and participated in PBSUCCESS.

3. VAIVADA has been [redacted] in his present capacity (P/A, AMPHODARCH Project) since July 1954. His performance there has continued to be outstanding. He has proved to be particularly adept at [redacted] and his work has been highly praised by the Chief of Station, Habana. In recommending renewal of the AMPHODARCH project recently, FI/Plans/Projects stated, with reference to VAIVADA, that he "has obviously been a valuable, deep cover agent handler during six years of service for WH." He had been qualified previously as the most valuable agent of the San Jose Station.

4. There are sufficient funds in the AMPHODARCH project (approved 13 December 1955 for the period 1 August 1955 through 31 July 1956) to provide for the above-requested increase in salary. Such an increase will be specifically provided for in the next project renewal request. VAIVADA has been at his present salary level since July 1954.

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 1 August 1954, as amended.

Effective 1 January 1956, said contract, as amended, is further amended by deleting paragraphs one (1) and two (2) and all reference to Federal taxes and substituting in lieu thereof the following:

1. Compensation. In full consideration for the purchase of certain information and services, you will receive from the Government, payable in such an approved manner as you may direct in writing, the following:

(a) Compensation calculated at the rate of \$5060 per annum; and

(b) Additional compensation for quarters procurement for you and your dependents presently calculated at the rate of \$2575 per annum and applicable only to your initial permanent post of assignment overseas. As this additional compensation is based upon quarters costs at said post, it is subject to unilateral adjustment by the Government whenever warranted by a change in the factors affecting its initial establishment. Quarters will not be furnished you by the Government

(c) Additional compensation for cost of living expenses (other than quarters) for you and your dependents presently calculated at the rate of \$1920 per annum and applicable only to your initial permanent post of assignment overseas. As this additional compensation is predicated upon the comparative cost of living between Washington, D. 2. Taxes. (a) As your legal relationship to the Government is that of an independent contractor, all amounts paid directly or guaranteed by the Government under Paragraph one supra, are reportable as income under existing Federal income tax laws and regulations.

(b) In view of the security considerations involved, the Government agrees, at your request, to withhold Federal income taxes from the monies due you under this agreement in an amount equivalent to the United States income tax withholding schedule based upon your taxable income hereunder and [redacted] present exemption(s). SUBJECT: Arthur G. VATTARA (P)

REFERENCE: Memorandum dated 23 December from Chief, ISR, to Chief of Operations, IS/P, same subject.

1. This is an interim memorandum regarding the subject matter. With respect to paragraph 1. of the referenced memorandum, the WH Division is trying to obtain a factual written statement regarding the circumstances under which the original advance of \$1,500 was made to the subject. Circumstances regarding this advance were given verbally to [] of the Inspection & Review Staff in October. The difficulty in providing a written statement at this time is due to our inability to reach the officers in PROXIMS who authorized the advance. At the time of the advance the authorizing officers did not report directly to the Chief, WH Division.
2. With respect to paragraph 1.b. as to why the money has not been collected, we find that the PROXCESS Finance Officer did take immediate action to provide for the collection of this advance. In order to pay back this advance the subject requested that his salary be paid in the field rather than at Headquarters. We now find that the Finance Division, as of this date, has not taken the action requested.
3. This has been discussed on numerous occasions with the Finance Division with the assurance that it would be acted upon immediately. The Chief, Finance Division, has been advised of this matter and is taking the necessary action to facilitate the collection of the advance.

STATION HAVANA, CUBA

HEADQUARTERS CASE OFFICER:

Room No. 2104 Sts. I
Extension 2555
Date 22 July 1954

1. It is requested that an amendment to the Subject Project be approved wherein contract agent ~~ARTHUR~~ G. VAIVADA (P) will replace contract agent Wallace C. RIKON (P). Operational clearance for the use of VAIVADA in Project AMPHODARCH was granted 21 July 1954 (O.C. #25507).

2. Project AMPHODARCH is already approved for \$5400 for the year ending 31 August 1954. This amendment will increase the cost of AMPHODARCH during the remaining month of this approved period by ~~\$1232.74~~ ^{\$1232.74}. RIKON'S compensation, allowances, and expenses for the same period is figured to be \$450.00. A breakdown of VAIVADA's expenses for the period 1 August through 31 August 1954 is as follows:

Compensation (Gs-9)	421.67
Allowances	137.50

Transfer allowance	150.00

Transportation ^{for Vaivada and family}	<u>340.23</u>
TOTAL	\$1307.74

3. For a successful substitution of VAIVADA in place of RIKON in Project AMPHODARCH in Havana it is necessary that the two contract agents be in contact/during the period 1-31 August 1954. Immediately following the submission of this amendment covering that period, a project renewal will be drawn up contemplating the use of VAIVADA in the project on a yearly basis with at least a two-year tour in view.

5. Arthur G. VAIVADA has been a contract agent in the employ of RUEARK since July 1949, working in the HUMANOID Project and more recently in Project

previous work as a contract agent has been excellent and it is felt that with the substitution of ~~AR~~ VAIVADA for RIKON, a big improvement in the production of the project may be expected during the coming year. VAIVADA, a U. S. citizen married

The Pan-American Foundation, Inc.
Box 3527,
University Station,
Gainesville, Florida, U.S.A.

Dear Mr. Wilgus,

As a student of economics with special emphasis on the Latin American areas, I wrote you in the letter dated 17 May for information about obtaining a scholarship through your organization for continuing my studies in economics at the University of Habana in Cuba. I should like to begin work there for the school year 1954-1955.

As to my qualifications, I have attended the School of Economics Sciences at the University of Costa Rica from 1949 through 1953. In all my previous courses I have done above average, as can be attested by the schools concerned.

My present desire is to continue my study of economics at the University of Habana for one year, or as long as it may be deemed necessary to obtain a Bachelor of Science degree in economics. I am also interested in the possibility of having the scholarship renewed at the end of the period, so that I may be able to begin graduate work in economics. Because I am a married man with two small children, I would like to know whether the scholarship granted would be sufficient to cover the cost of food and housing in addition to tuition, books, and the normal academic expenses, which I estimate to be about \$3000.00 annually.

As to my personal history, I am a United States citizen and shall be 32 years old in June. I have served in the United States Army and Air Force between 1940 and 1949, with the exception of an eight month period in 1945 and 1946. The areas in which I served are India and Burma in World War II, and Panama after 1946. Because of my long residence in Panama and Costa Rica I speak Spanish fluently, as does my wife who is of Costa Rican nationality. As mentioned before, I have two young children born in 1949 and 1951 respectively.

I realize the above information may be insufficient in order to determine whether I qualify for a scholarship, and I should be glad to provide any additional information that you may require. Please also send me whatever forms necessary for making formal application for a scholarship.

Sincerely yours,

Ross L. Crozier

1. In answer to reference, it has been determined by the appropriate office at Headquarters that VAIVADA is not entitled to receive compensation from both this organization and [redacted]. The enclosed contract amendment has been written to provide for an offset between subject's salary from this organization and [redacted].

2. VAIVADA should be informed that Headquarters is appreciative of his alertness to this situation since it will be easier to adjust his financial situation now rather than have to turn back a fairly large sum of money in the future. It is to be noted that the amendment is written in such a way that when he stops receiving the [redacted] payments at the end of his eligibility period, the full amount of his salary due from this organization will again be deposited as heretofore.

1. As has already been reported, Arthur G. VAIVADA and dependents arrived in Guatemala City on 2 January 1954. The first of several contacts with him was successfully accomplished on the night of 4 January 1954. Subject currently is living temporarily in an apartment hotel; however, he has already rented a small, inconspicuous apartment located in a middle-class neighborhood. He has purchased a few pieces of inexpensive furniture for the apartment and intends moving his family to the premises within the immediate future. Subject's choice of neighborhoods in which to reside is believed excellent. The apartment is located in a fairly busy section of town, is on a busy street served by public buses which travel to all parts of the city and is of such modest appearance that it will attract no attention.

7. It should be noted, that Agent over a period of several contacts appeared to be very cooperative and his attitude was comendable. When he first learned that he had been denied entry [redacted] he was somewhat chagrined since he appeared to be set on an attempt to do a good job in a "tight" area. He had not given up hope to obtain proper authorization and was willing to pursue the matter further since he felt over a period of time he would be allowed proper entry authority. He suggested several possibilities.
8. Agent also expressed a desire to go to Cuba or anywhere else the Agency felt he could be of best service to the Agency regardless of the difficulties within reason, which may have been imposed on him and his family.
9. In view of Agent's past successful record with this Agency, in view of his attitude, his future possibilities and his comparatively limited salary, it was suggested to [redacted] that he might consider a raise in Agent's salary.
10. [redacted] on 7 December 1953 advised that Agent was denied entry [redacted]
11. It should be noted that Agent has indicated that [redacted]
[redacted] In this connection, Agent on 11 December 1953 informed [redacted] had received a letter [redacted] The letter indicated that difficulty should be anticipated in obtaining an entry [redacted] permit [redacted] but that it nevertheless is possible. Agent states the letter points out a plan for Agent [redacted] to work out. Agent informed the letter was received a little too late since he is now on the other operation. He stated however, he [redacted] will be in contact [redacted] with a view toward the possibility of entering [redacted] at some future date. ([redacted] is forwarding the above mentioned letter [redacted])
12. FI/Plans Staff is being informed to cancel Project [redacted] as of 1 December 1953.
13. Attached hereto and for retention in Agent's file are the following:
 - (a) Copy of receipt # P-3283 for Agent's salary (\$350.00) for the period 1-30 November 1953.
 - (b) Receipt F-556 dated 25 November 1953 for the amount of \$93.00.

COMMENTS

Due to financial pressure, explained in TRSA-1142, HUMANOID has recently undertaken a part time job

Subject is the most valuable agent available to this station and is believed capable of further development in the event current operational restrictions are removed. He is conscientious, hard working, loyal, imaginative, and amenable to supervision. In view of his interest in a long range career, a reply to the question posed in TRSA-1142 concerning career agent status would be appreciated. Subject has been aware of the recommended salary increase which has been pending for over ten months. Although he has not questioned the delay, it is obvious that his self-confidence and professional pride have been shaken somewhat by the lack of official recognition. We feel strongly that agent has earned a raise and that an increase at this time is not only justified but would be in the best interests of our present and future operations. PLEASE EXPEDITE ACTION ON THIS MATTER. 6 May 52

Despite the fact this agent has been working under certain operational restrictions for a number of months, his value to this station continues to be of major importance. [redacted] This Station is presently interested in accomplishing [redacted]

[redacted] It is believed that subject has potential in each of these fields. However, as reported previously, HUMANOID is beset with financial [redacted] which undoubtedly detract from his full working efficiency on matters of interest to us. [redacted]

[redacted] The former Chief of Station recommended an increase from 1,000 to 1,500 [redacted] in July, 1951, a recommendation in which the writer concurred. However, in the event current operational restrictions are removed, it is desired to recommend at this time an increase to sixteen hundred (1,600) [redacted] per month. The additional one hundred [redacted] per month is suggested in view of the fact that subject has

and because he has been aware of and probably counted on the raise recommendation of the former Chief of Station. Further, if the restrictions are lifted, it is desired to utilize subject's time to the fullest advantage without the handicap of his having to seek other outside employment.

SUBJECT : Project HUMANOID

1. A total of \$5934.00 was originally requested for this project for the period 1 March 52 to 28 February 53. The amount actually approved was \$6000.00 (Form No. 51-91, project folder).

2. \$5100.00 of the approved amount was to provide for the compensation of four agents who were to be reimbursed as follows:

HUMANOID	1600.00 (colones)
HUMANOID-1	150.00 (")
HUMANOID-2	250.00 (")
HUMANOID-3	900.00 (")

3. The funding requirements for agent salaries were calculated (by the Headquarters case officer, [redacted] at a rate 8 to 1 (e.g., HUMANOID was to receive [redacted] 1600.00 or \$200.00 per month).

4. However, the rate of exchange has fluctuated since the original funding estimates were made. The present rate is 6.63 to 1. Accordingly, the monthly pay scale for HUMANOID in U. S. currency would be approximately \$241.00 (or [redacted] 1600.00). The pay scales of the other agents are similarly effected.

5. This situation was explained to the Budget office [redacted] extension 2017) and the Plans office [redacted]. I stated that dollar expenditures would be in excess of the amounts provided in the project if we were to continue payments to the agents at the [redacted] rates previously established. [redacted] informed me that we could nonetheless continue the present [redacted] pay scale. He further advised that budgetary adjustments could be made at a later date when it became evident that the project allotment would definitely be exceeded due to currency fluctuations. A project amendment is not then required at this time. The station may be advised to continue payments [redacted] in the amounts shown in paragraph 2, above.

SUBJECT: BIRADIAL

On Wednesday, 14 October 1953 I met with subject at his apartment in [redacted] Alexandria, Virginia for the purpose of obtaining his signature on the Travel Voucher previously submitted covering his travel [redacted] to Washington, D. C.

BIRADIAL indicated that the combination of his schooling [redacted] in the mornings and his covert training in the afternoons which also keeps him busy during the weekend, is keeping him fully occupied. Though he did not press the issue, he wondered whether it would be necessary to continue his schooling [redacted]. He indicated he thought he could handle any inquiries regarding his activities satisfactorily. We both decided however that, regardless of the hardship placed on him, he should continue his schooling [redacted] since any inquiries could then be properly and legitimately backstopped. One of the difficulties involved is the amount of daily travel between the University and his residence.

Inasmuch as the distance involved plus the high rental cost factor (175.00 per month) present a few difficulties. This plus the fact that the plausibility of a student paying such rent is somewhat questionable, BIRADIAL indicated he might move to a more suitable location.

On 23 October 1953 he informed he was moving [redacted] as of this day for cover, convenience, and financial considerations. He will advise of his new phone number if and when it is available.

1. On 1 October 1953 the writer [REDACTED] was introduced to Agent Arthur G. Vaivada (P) by J. G. Hanke at his apartment [REDACTED]. The introduction was deemed advisable, inasmuch as Agent is to be inherited by Branch II. Mr. Hayn informs he is not available to handle Agent at this time but will meet him in about three weeks.

2. In accordance with instructions received from Covert Training Offices, Agent is to report for covert training [REDACTED] on 5 October 1953 at 1415 Mrs. [REDACTED]. He is to ask for [REDACTED] when he arrives. Agent is to be known as [REDACTED]. The instructions were passed on to the Agent. He was also informed to call X2298 [REDACTED] in the event he desired to make an appointment to discuss business matters.

This story had been decided upon before the writer came upon the scene. Since Agent has not [REDACTED] it was suggested to him that he commence [REDACTED] as soon as possible. He informed he would do this as soon as he learns of the details as to his hours to be devoted to Covert Training.

5. Although there is no assurance subject will be granted permission [REDACTED] subject previously indicated he could foresee no problem in this regard. He did make inquiry, however, as to what his status would be should he not be allowed entrance [REDACTED].

6. It is unfortunate that Agent is residing in the Washington D. C. area inasmuch as that in itself is undoubtedly considered as a Government Stigma. The possibility exists that the wrong person or persons will learn of his and his wife's presence in this area.

MEMORANDUM FOR RECORD

SUBJECT: Interview with Arthur G. VAIVADA

1. On 9 September 1953 subject was again contacted at his apartment and the new contract was signed. Subject was told that the contract clause dealing with additional commitments not included in the contract was standard agency protection against unauthorized promises by persons contacting him, such as the case officer. He was told, however, that the case officer's personal experience has been that the agency makes all possible efforts to act in good faith and with common sense if contract problems arise at a later date.

2. The "offset" provisions of the contract was explained, emphasizing the agency's view that [redacted] would be possible only [redacted]

NOTE: Subject's questions appeared motivated by the contract form, which was more complicated and "legalistic" in appearance than the one written in the field under which he has been operating for the past four years. His attitude at all times was most cooperative, and he agreed that the spirit in which the contract was carried out, on both sides, was as important as the provisions. It was carefully explained to him that ~~XXXXXXXXXX~~ the contract served the double purpose of defining the rights and obligations of both himself and the agency, ~~XXXXXXXXXX~~ and for that reason may at points seem more "legalistic" than ~~XXXXX~~ regularly necessary. However, subject stated several times that he had had nothing but the best of relations with the persons who have directed him so far, and it is the case officer's opinion that he has ~~XXXX~~ the utmost faith in the good intentions of the agency.

MEMORANDUM FOR FILE

SUBJECT: Interview with Arthur G. VAIVADA

1. On 28 August 1953, Arthur G. VAIVADA was contacted at a hotel in Washington, D.C., by the [] desk officer. Subject was briefed on the necessity of submitting an accounting of travel expenses and given the outlines of his training schedule. He also signed a pseudonym acknowledgement. In addition, subject was given his full August salary of \$250 (old rate), although it developed that he had been given a half months' salary by the station prior to departure. He was told this overpayment would be subtracted from his travel reimbursement.

2. On the night of 30 August 1953, subject was contacted at his apartment in Virginia.

NOTE: At all times the subject impressed the case officer with sincerity, willingness to abide by agency decisions in all matters, and showed a most cooperative attitude.

3. Subject made the following points while discussing his [] assignment:

a. His application for entrance [] is now in the hands of the []. It should be granted in three months. He does not foresee any problems in this respect, but did ask what our plans would be if any thing did prevent his going there. He was told that we would attempt to place him elsewhere, but that this was a contingency we couldn't make any plans about until something prevented his present assignment.

b. Subject will keep in touch with the [] through a friend in Ohio who will handle incoming and outgoing mail. This address has been given to the []

c. Subject has told his parents that he is []. Communication through them will be through a friend [] on whom he submitted PRQ data when this friend was in [] earlier this year. (A security clearance request has been made by LHD/III). Subject's friend is also willing to a certain extent since he gave very general information when obtaining the PRQ data. []

it was carefully explained to him that the agency had certain reservations considering this point. Emphasis was put on the point that good operational security practices in his future assignment would be of extreme importance for obvious reasons. It was pointed out that this interim period in Washington would be an ideal time [REDACTED]

He was frank in admitting that he realized the dangers also, and would cooperate to the fullest extent.

NOTE: Subject is sensible in his approach to security and appears to think through each problem on its own merits. The extent of [REDACTED]

It is the case officer's opinion that subject has carefully controlled [REDACTED] and acted prudently in matters involving security. SPECIFIC- HUMANOID

Ref: DIR 90960, 23 June 1953

1. Transmitted herewith is the HUMANOID file, which, through a regrettable inadvertence, was not forwarded to your station sooner. After perusal by your station, it is requested that the file be returned to San José for use in briefing the incoming Chief of Station on the over-all scope and ramifications of these activities formerly handled by subject which will be reassigned upon HUMANOID's departure.
2. In view of the fact that subject has sold his house and furniture and must effect delivery on 31 July 1953, and because a tentative departure date of 1 August 1953 has been set, your early attention to reference would be greatly appreciated.
3. The HUMANOID file will be returned to Buenos Aires for permanent retention after it has served the purpose set forth in Paragraph 1.

HUMANOID

REFERENCE: DIR 09060

1. Reference cable proposed subject for your consideration as a contract agent, in which capacity he has already served KAFOK most ably during the past four years in Costa Rica. The San Jose Station was requested to forward subject's file for your perusal; we hope that you are now in receipt of this file.
2. This dispatch has the purpose of presenting to you Headquarters' appraisal of HUMANOID. A review of the Headquarters file indicates that HUMANOID is an aggressive, rather well qualified operative, who has enjoyed a good measure of success and has exercised good judgment under operational stress. He desires a career with this Agency, and is devoted to the work.

3. There follows a summary and appraisal of HUMANOID's work which has been provided by the Headquarters Costa Rican Desk.

- e. The question of a career status was discussed with subject over a year ago when he was in touch with the former chief of station now at Headquarters, but no commitments were made in this regard, although he was told that it would be considered, depending on his future activities. He indicated his willingness to continue his operational activities in any other capacity.

[redacted] He has discussed the question of covert training at Headquarters some time in late 1953 prior to going to Argentina. It is Headquarters' understanding that he would come to Headquarters some time in late August or September for approximately two months covert training, after which he might be directed to await departure for Argentina until some time in mid-January 1954 in order not to arrive in the area [redacted].

- f. Additional personal information on subject will be found in the San Jose Station file.

4. HUMANOID appears to be a promising prospect for consideration as one of the individuals to be introduced [redacted] in accordance with Country Plan objectives. Should you find his qualifications of interest and favor his entry into Argentina as a Mission asset, please advise as early as possible, in order that necessary travel details and training schedules can be arranged at Headquarters. In view of the higher standard of living in Buenos Aires and subject's excellent record of service, an amendment of his present contract would be effected while he is in Washington. Our present thinking is in terms of annual compensation at GS-7 level (\$4205). [redacted] with a wife and two children will probably discover this amount to be none too ample to maintain a normal standard of living. Your comments and suggestions will be appreciated, particularly with regard to any allowances that would be appropriate.
5. An early reply would be especially helpful, since HUMANOID has already remained in Costa Rica three months beyond the date [redacted] and should leave there by August. (He was requested by the San Jose Station to remain through July to cover [redacted]) We shall await your reply pending any further action regarding HUMANOID.

SPECIFIC— Security Review of Current Operations
Project HUMANOID

1. The following comments on reference are submitted for your information and files. It is to be noted that the headquarters reviewing officials have arrived at a number of the same conclusions that we have with regard to the security of the Project and the possible lines of action to be followed.

2. With regard to Paragraph 6 of reference, we feel that although the security risk of contact and communications between HUMANOID and HUMANOID-3 has not been removed, it has been reasonably minimized. After the closing of HUMANOID's [redacted] in November, 1951, several meetings were carried out at night on park benches while attempts were being made to locate a secure safehouse. This method was not satisfactory because of the impossibility of handling and discussing written materials, the brief time limit demanded, and the possibility of accidental recognition of one or the other. A number of meetings were held at the home of HUMANOID at night with [redacted]

Although the obvious security hazards here were aggravated by the fact that [redacted]

[redacted] lives in the neighborhood, the risks were deemed less serious than park meetings. A safe house was located in May, 1952, and was used for several meetings, but was compromised and abandoned when several [redacted] acquaintances of HUMANOID passed by and saw him unlocking the front door. Meetings were again held at the home of HUMANOID on a staggered schedule while search for suitable safehouses continued. (At least ten apartments and offices were examined and rejected by HUMANOID and the writer during this period.) A new safehouse was rented on 1 November, 1952, and is presently being used for meetings. However, both HUMANOID and HUMANOID-3 have agreed to abandon this place at the end of the month, because actual use has demonstrated security weaknesses in exit and entry. Another safe office is presently under investigation, and attempts have been made to limit the live contacts by brush meetings in darkened streets and use of [redacted]

We are also actively searching for suitable two-way dead drop facilities in a further effort to minimize live contacts.

SPECIFIC- Communist Party Penetration Operations

Ref: 106

1. Headquarters attention is invited to Project HUMILIANT which has as its objective the recruitment of a party member or the introduction of a new member into the Communist Party in the San José area. HUMILIANT-2 has made some progress in this regard, having been accepted in the Communist syndicate and having widened his circle of Communist acquaintances in the area. This project is expected to produce a low-level, long-term penetration of the party in one of the most critical San José of Costa Rica.
2. HUMILIANT has recently been instructed to canvass the lists of second and third echelon Communists and sympathizers in the San José area for possible defectors. Heretofore, most of the station's attention has been directed towards members of the Political Commission with negative results. However, a review of available operational data on the top leaders is once again being made with the likelihood that HUMILIANT will be used for at least one approach immediately prior to his departure. This approach will be in addition to the search for a second-string recruitment. Also, an effort is being made to locate an appropriate individual who will be instructed to join the party as a new member. On 6 June 1953 another contact was had with the subject of 105 with negative results.
3. Any penetration of the Communist Party is the same as a penetration of the San José as the actual leadership is almost identical. We are hopeful that KUCOWE efforts will result in the San José being declared illegal this week.
4. No specific plans have been made as yet for HUMILIANT's use in the San José field except that we are considering the possibility

Memo to [] re Departure Timetable for HUMANOID

Certain circumstances surrounding my application for residence []

[] have given rise to a suggestion in reference to my timetable for departure. Originally it was agreed by all concerned that a departure shortly after [] (say 1 August 1953) would be most convenient for the station. There was some question as to [] but it was later decided that a more direct assurance of entry could be arranged by actual application for [] This process was begun immediately. Subsequent conversations with [] however, have given me the impression that headquarters will await the approval of the [] before arranging my departure for the U.S.

Actually there have been no unusual obstacles encountered in the routine preparation of documentation, but nevertheless, [] "results will not be forthcoming in less than three months." Accordingly, this would place the most optimistic results some time in late September.

Meanwhile, for rather urgent personal reasons, I am anxious that my departure for the U.S. be realized as per the original understanding, that is, shortly after [] By this plan, correspondence can be maintained [] as concerns the arrival of the documentation, and my proposed training period can conceivably be accomplished within this interval of time. If [] is denied, or the delay unusually great, an alternate area might then be considered.

I fully comprehend the uncertainties involved in making such a departure without the residence at the future station positively established and am prepared to enter and work in any area selected at the discretion of the organization. What I am trying to avoid most of all is a possible interim waiting period of several months in a more or less casual status. If such is inevitable, then let it take place Stateside!

MEMORANDUM FOR: Chief, WH Division

SUBJECT : Humanoid

1. At the request of [redacted] I met with Humanoid on the occasion of his visit to Washington last November and made certain oral commitments on behalf of the Division. No commitment, however, was very specific and all were cleared with the Division in advance. My participation in the matter was, of course, owing to the fact that I had recruited Humanoid originally and enjoy his confidence.

2. Humanoid in the past has pursued his activities on behalf of this organization as somewhat of a profitable avocation. His performance, nonetheless, has been outstanding from the point of view of initiative, production and understanding of operational principles. He would now like to make it a career but lacks sufficient information upon which to base a decision and, being partially aware of the uncertainties involved, insists upon maintaining an alternate vocation. In pursuit of this latter objective, he plans to move to Buenos Aires in June or July of 1953 and establish himself there on a permanent basis. His inquiries were to ascertain what effect these plans would have upon his present and future relationship with this organization.

3. I advised Humanoid to continue with his plans as outlined above, stipulating only that he remain in his present location until after [redacted] and assured him that as a consequence of his past satisfactory service he would be picked up in Buenos Aires at a compensation at least equal to that which he is presently receiving.

4. I then explained that our participation in his move would necessarily have to be determined at a later date but requested him to keep us informed of his plans on a continuing basis, assuring him that it would do no harm to request such assistance as he might need. In this connection, I advised him to request formal training, which he has never had, implying that this would be granted, and suggested that a formal contract, future compensation, travel expense and so forth could best be negotiated here at that time.

5. I recommend, therefore, that Humanoid be brought to headquarters for a period of training and that a contract agent relationship containing the usual travel and allowance provisions be formalized at that time. Basic compensation should certainly consider his past record and proven reliability in addition to the initiative he has shown in laying on his [redacted] Although his future assignment is none of my business, I would point out that he has proven adept [redacted] and suggest that his talents would be greatly circumscribed if assigned [redacted]

MEMORANDUM FOR CHIEF, BRANCH III

SUBJECT: HUMANOID

1. Attached hereto is a letter received from HUMANOID by Mr. [redacted] at Headquarters and the former Chief of Station at Costa Rica, who recruited HUMANOID.

2. Particular reference is made to Paragraph 6 regarding a change in assignment. [redacted]

[redacted] in 1953 he should be brought to Headquarters for training, and that he should be converted to Staff Agent for possible reassignment [redacted] under deep cover. [redacted] HUMANOID will go stale in [redacted] and that a change should be made to better utilize his services. Although subject is the principal source in Costa Rica, he feels that arrangements could be made for an orderly turn-over and departure.

3. While I was assigned in Panama I met subject, at which time he was contemplating moving to Panama, [redacted] and working for the Panama station. He impressed me very well and would have been quite an asset, but the deal fell through due to the higher cost of living in Panama and the fact that he would lose considerable [redacted]

4. I do not know whether it can be worked out but I certainly would go along with recommending that he be afforded training in the U.S. and that he be reassigned, preferably to [redacted] or one of the other countries where he is urgently needed for additional [redacted] The question of his converting to Staff Agent might be worked out also.

1. Project HUMANOID was approved in the amount of \$6000.00 for the period 1 March 1952 to 28 February 1953. This amount was based on the following funding requirements as set forth in the project outline which was presented for approval in May 1952:

Salary: HUMANOID	\$ 800.00	\$1600.00

3. Project financial records in Headquarters are maintained in U. S. currency. Accordingly, DIR 16246 (OUT 50019) was expressed in dollar units. Unfortunately, we were not aware of recent fluctuations in the rate of exchange when the message was sent and the amounts quoted were not sufficient to maintain agent salaries on the previously established scale. This problem has been discussed with appropriate offices here as indicated in the attached memorandum for record which we believe to be self-explanatory.

4. In the event that the current financial status of project HIRSHFELD is not hereby clarified to your satisfaction, we will be happy to furnish any additional information that may be required.
